Independent Auditor's Report

To the Elected Officers
USG Pipeline Company, LLC

Report on the Audits of the Regulatory Basis Financial Statements

Opinion

We have audited the regulatory basis financial statements of USG Pipeline Company, LLC (the "Company"), which comprise the regulatory basis balance sheet as of December 31, 2025 and 2024 and the related regulatory basis statements of income, retained earnings, and cash flows for the years then ended, included on pages 110 through 122 of the accompanying Federal Energy Regulatory Commission Form 2-A, and the related notes to the regulatory basis financial statements.

In our opinion, the accompanying regulatory basis financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2025 and 2024 and the results of its operations and its cash flows for the years then ended in accordance with the accounting requirements of the Federal Energy Regulatory Commission, as set forth in its applicable Uniform System of Accounts and published accounting releases.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). We are required to be independent of the Company and to meet our ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis of Accounting

We draw attention to Note 2 to the regulatory financial statements, which describes the basis of accounting. The regulatory financial statements are prepared by the Company in conformity with the accounting practices prescribed or permitted by the Federal Energy Regulatory Commission, as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a basis of accounting other than accounting principles generally accepted in the United States of America. As a result, the regulatory basis financial statements may not be suitable for another purpose. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Regulatory Basis Financial Statements

Management is responsible for the preparation and fair presentation of the regulatory basis financial statements in accordance with the accounting practices prescribed or permitted by the Federal Energy Regulatory Commission, as set forth in its applicable Uniform System of Accounts and published accounting releases. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of regulatory basis financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the regulatory basis financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date the regulatory basis financial statements are issued or available to be issued.

USG Pipeline Company, LLC

Auditor's Responsibilities for the Audits of the Regulatory Basis Financial Statements

Our objectives are to obtain reasonable assurance about whether the regulatory basis financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the regulatory basis financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the regulatory basis financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the regulatory basis financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the regulatory basis financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Restriction on Use

Our report is intended solely for the information and use of the Company and for filing with the Federal Energy Regulatory Commission and is not intended to be, and should not be, used by anyone other than these specified parties.
